

Panopto Settings for Broun 239 Classroom

Best Camera: USB Capture HDMI

Best Microphone/Audio: Line In (2—High Definition Audio Device)

Document Camera: Set Secondary Source to USB Capture HDMI, choose Doc Cam from the podium control panel

Laptop Capture: Set Secondary Source to USB Capture HDMI, choose Laptop from the podium control panel

The screenshot shows the Panopto web interface. At the top, there are navigation buttons: "Create New Recording", "Manage Recordings", and "Settings". The "Settings" button is active. Below the navigation bar, there's a "Session Settings" section with a "Record" button (a red circle icon) and a "Webcast" toggle. The session is set to "Offline Recording" with the name "Friday, August 7, 2020 at 2:03:42 PM". The "Primary Sources" section is expanded, showing a list of sources: "PowerPoint", "Main Screen", and "USB Capture HDMI". The "USB Capture HDMI" source is highlighted with a red box and a red arrow pointing to it with the text "Secondary Source". Below the list, there are settings for "Video" (USB Capture HDMI), "Audio" (Line In (2- High Definition Audio Device)), and "Quality" (High). There is also a checkbox for "Capture Computer Audio" which is unchecked. Below these settings, there's a "Secondary Sources" section with checkboxes for "Capture PowerPoint" and "Capture Main Screen", both of which are checked. The "USB Capture HDMI" source is also listed here. A red arrow points to this section with the text "Secondary Source". At the bottom of the interface, there are settings for "Resolution" (1920 x 1080), "fps" (24), and "kbps" (2000). The "fps" setting is highlighted with a red box.
